Growing Together

TEMPO ULTRA: MOUNTED SPRAYER

ADVANCED TECHNOLOGY

TEMPO ULTRA is the new compact medium and high level mounted sprayer, user-friendly and comfortable design.

It joins the MASCHIO GASPARDO mounted sprayers range to meet the needs of medium and large farms, ensuring high quality and best performances.

TEMPO ULTRA is available with tanks of 1300 – 1600 - 2000 liters (nominal volume) and booms from 21 up to 27 mt of working width.

Thanks to two advanced electronic units (ISOBUS or not ISOBUS), to the semi-continuous circulation system (Re.D) and the NEW ALA 400 light boom, machine has high versatility and spraying efficiency.

HEAVY-DUTY, COMPACT AND USER-FRIENDLY

Made of high strength steel and aluminium tips, new boom ALA 400 is fully hydraulic equipped with a opening/closing Z shape configuration to limit the transportation dimension by shifting the machine mass center closed to the tractor.

ALA 400 pendulum system has a shock-absorber suspension with a anti-yaw system to ensure high performance and a long reliability.

HYDRIC PANEL

To meet the most comfortable use of the sprayer, two new water control station have been engineered in manual and electronic versions. The electronic one allows to manage the sprayer functions directly from the tractors cab.

MANUAL

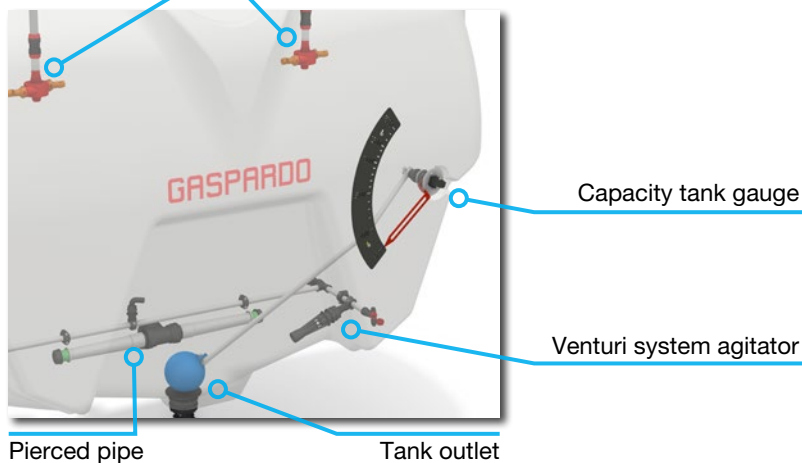

ELECTRONIC

NEW INTERNAL SHAPE

New shape of the main polietylene tanks, ensures a perfect internal agitation. Fresh water tank guarantees a fast cleaning of all parts of the hydric circuit in all working conditions. Thanks to the electronic hydric panel, agitation and cleaning systems are managed automatically.

Rotating nozzles for tank cleaning

WET SIDES PREMIX

30 liters new tank with constant water flow to ensure the best chemical product mixing.
