

ORCHARD TILLERS

MANAGING ORCHARD FLOOR PROFITABLY

Bury shreadings and incorporate fertilizers in one cost-effective pass.

MASCHIO ORCHARD TILLERS are heavy built and designed to effectively bury residues and make them decompose faster. The **smooth rear roller 7" wider on each side**, creates a good soil packing and levelling allowing to prepare the ideal orchard floor for harvesters. **B, C** and **SC** orchard tillers cutting width goes from 7½-ft up to 11½-ft and they are fitted with **tungsten coated blades** and **counter-flanges** as **standard equipment**. The sturdy build, the extended **side retaining plates** and levelling bonnet design, the rear **roller hydraulic depth adjustment** and the different rotor designs available make Maschio tiller the perfect choice for pruning residues management in all working conditions.

	 kW / HP	 (ft)	 (ft)	 (n)	 (lbs)*
B 230	52-74 / 70-100	7½	9½	64	2700
C 250	59-96 / 80-130	8	10	60	2970
C 300	74-96 / 100-130	10	12	72	3230
SC 300	95-126 / 130-170	10	12	72	3700
SC 350	132-184 / 180-250	11½	13½	84	4180

STANDARD EQUIPMENT

- Cat. II 3-point hitch
- A.S.A.E. quick hitch compatibility
- Multi-speed gearboxes :
 - 4 sp. at 540 rpm (B mod.)
 - 4 sp. at 540 rpm & 2 sp. at 1000 rpm (C mod.)
 - 3 sp. at 540 rpm & 3 sp. at 1000 rpm (SC mod.)
- Slip clutch PTO shaft
- Side gear transmission in oil-bath
- Heavy-duty rotor hub:
 - Heavy-duty SKF bearings: ball bearings (B and C mod.) and spherical roller bearings (SC mod.)
 - Duo-Cone metal face seals
 - Oil-bath
- 6 tungsten coated blades per flange
- Counter-flanges to absorb shocks
- Extended side retaining plates
- Hydraulic roller adjustment
- 20" Ø smooth rear roller 7" wider than side plates fitted with tungsten coated mud scrapers
- Long multi-bends rear levelling doors with down-pressure double springs
- Condor and Cobra rotor available on SC series
